Tangerang, Banten, 14158

A motivated and detail-oriented fresh graduate Informatics Engineering with a strong foundation in data analysis and web development. Eager to leverage practical experience from academic and personal projects to contribute to a dynamic organization. Proficient in transforming complex datasets into actionable insights using SQL, Python, Power BI, and Excel, with hands-on experience in building predictive models and intuitive dashboards. Also skilled in front-end and back-end web development, with proven abilities in PHP and CSS. Seeking a challenging entry-level opportunity to apply technical skills, learn from experienced professionals, and contribute to impactful, real-world projects.

EXPERIENCES

Full-Stack Web Developer - BUIB ITPLN

Mei 2025 - now

- Developed a multi-module web information system to manage and monitor programs across various departments.
- Designed and implemented dynamic data dashboards using Chart.js to visualize key performance indicators, including financial progress (Target vs. Realization)
- Implemented comprehensive CRUD (Create, Read, Update, Delete) functionalities for various data entities such as international partners, document archives, user accounts, and program categories.

Computer Laboratory Assistant - Information Retrieval Lab

Sept 2023 - Jan 2025

- Assisted students in understanding the fundamental and advanced concepts of information retrieval.
- Provided guidance in implementing algorithms, troubleshooting technical issues, and optimizing system performance during laboratory sessions.
- Contributed to creating a collaborative learning environment to enhance students' skills in data retrieval and analysis.

PT PLN (Persero) UP3 Cikokol

Jul 2024 - Oct 2024

Internship | Divisi Perencanaan

Tangerang

- Developed a project to predict optimal locations for electric vehicle charging stations (SPKLU) using Python, leveraging data analysis and predictive modeling techniques.
- Designed interactive dashboards with Power BI and Excel to visualize insights

EDUCATION

Institut Teknologi Perusahaan Listrik Negara

2021 - 2025 (Expected)

Bachelor of Informatics Engineering | GPA : 3.85 / 4.00

Jakarta

NON-FORMAL EDUCATION

Studi Independen Batch 6 - Kampus Merdeka

Feb 2024 - Jun 2024

Data Analytic with Business Intelligence Tools

Metrodata Academy

Gained expertise in data visualization, dashboard creation, and business insights using tools like Power BI. Developed a strong understanding of data-driven decision-making processes to support business growth and performance.

PROJECTS

Decision Support System Website – SPKLU UP3 Cikokol

July 2024 - Sept 2024

- Developed using PHP, CSS, and MySQL
- Implemented scoring system for location selection
- Created user-friendly interface to enhance accessibility

KPI Dashboard for PLN UP3 Cikokol

Sept 2024 - Oct 2024

- Built interactive dashboard using Excel and Power BI
- Applied VLOOKUP, PivotTable, and DAX functions
- Visualized KPIs for organizational performance

Northwind Dashboard

Mei 2024

- Created data visualization in Power BI
- Analyzed sales, customer, and product performance
- Used relationships and slicers for interactivity

Sales Dashboard Project using Excel

March 2024

- Analyzed over 34,000 rows of sales data
- Built dynamic dashboard with PivotTables and slicers
- Utilized formulas such as VLOOKUP and IF for data transformation

LearnNCode Mobile Application

Nov 2023 - Jan 2024

- LearnNCode application is an online learning application in the form of videos specifically about coding and programming languages.
- Built the application using Kotlin and Android Studio
- Implemented UI/UX design using figma

Schneider Electronic E-Commerce Website Project

Nov 2022 - Jan 2023

- Developed product listing and checkout features
- Implemented responsive design
- Used PHP, CSS, JavaScript

Personal Website Project

Sept 2022 - Oct 2022

- Created personal portfolio site
- Designed with responsive layout
- Built using HTML, CSS

ORGANIZATIONAL EXPERIENCES
